TEV (Tobacco Etch Virus) Protease, Active
Recombinant viral protein expressed in E. coli cells

Catalog # T525-31H
Lot # L2146-6

Product Description
Recombinant TEV (Tobacco Etch Virus) protease (2038-2279aa) was expressed in E. coli cells using an N-terminal His tag. The enzyme commission number is EC 3.4.22.44.

Gene Aliases
Ni-a, Nla-pro, 49kDa-Pro

Formulation
Recombinant protein stored in 25mM Tris-HCl pH 8.0, 150mM NaCl, 30% glycerol.

Storage and Stability
Store product at –70°C for up to 1 year. Aliquot enzymes to avoid freeze / thaw cycles.

Digestion Conditions
Catalytic pH range: 5.5 ~ 8.5
Catalytic temperature range: 4 ~ 30°C

Scientific Background
Recombinant Tobacco Etch Virus (TEV) Protease is derived from the naturally occurring 28 kDa Nla recombinant protease. TEV Protease is commonly used for removing affinity tags from purified recombinant fusion proteins. TEV protease is highly site-specific, targeting the consensus sequence EXYX(Q/G/S). Cleavage occurs between Q and G/S. The most common TEV target sequences are ENLYFQG or ENLYFQS. The enzyme retains activity in solutions containing 1M Urea, 1-5mM DTT, β-Mercaptoethanol, EDTA and PMSF, Aprotinin, Leupeptin and other protease inhibitors. The 6-His tag enables easy removal of the protease.

SDS-PAGE analysis of TEV digestion of MBP-IFN. Lane 1: Marker; Lane 2: MBP-IFN. Lanes 3-6: MBP-IFN digested at 30°C with TEV for 0.5, 1, 2 and 3 hours, respectively.

To place your order, please contact us by phone 1-604-232-4600, fax 1-604-232-4601 or by email: orders@signalchem.com

FOR IN VITRO RESEARCH PURPOSES ONLY. NOT INTENDED FOR USE IN HUMAN OR ANIMALS.
Assay Protocol

Reaction Components

Active TEV Protease (Catalog #: T525-31H)
Active TEV protease.

10X TEV Digestion Buffer (User Prepared)
250mM Tris-HCl (pH 8.0), 1.5M NaCl, 140mM β-Mercaptoethanol.

Reaction Protocol

The following conditions may be different for different proteins. Optimize the protocol for each specific protein. It’s recommended to perform the digestion at 4°C with longer incubation time and/or more TEV if the protein to be digested is heat-labile.

Step 1. Optional: dialyze the purified protein in 1 x TEV Digestion Buffer prior to digestion
Step 2. In a microfuge tube, add the following reaction components bringing the initial reaction volume up to 100 µl:

- Component 1. Target fusion protein 20 µg
- Component 2. 10 x TEV Digestion Buffer 10 µl
- Component 3. TEV protease 1 U
- Component 4. H₂O to 100 µl

Step 3. Incubate reactions at 30°C and take 10 µl aliquots into 10 µl 2X SDS sample after 0.5, 1, 2 and 3 hours.
Step 4. Monitor the cleavage products by SDS-PAGE. Run an undigested sample of the target fusion protein as a control.

Activity Definition (units/µl)

SignalChem’s TEV protease activity is defined by the following:
One unit equals the amount of enzyme required to cleave 3 µg of substrate at greater than 95% in 2 hours at 30°C.
SAFETY DATA SHEET

Article 1 - Product Identification

Product Name: Tobacco Etch Virus (TEV) Protease, Active
Catalog # T525-31H

This product is sold only for research use by qualified laboratory personnel, and is not to be used as a drug, medical device, food additive, cosmetic, nor household chemical. It is not to be used in diagnostic, therapeutic, consumer, agricultural, nor pesticidal applications.

Manufacturer’s Name: SignalChem Pharmaceuticals Inc.
Street Address: 110-13120 Vanier Place
City, Prov. Postal Code: Richmond, BC, V6V 2J2
Fax: 604-232-4601
EMERGENCY PHONE: 604-232-4600

Article 2 - Hazard Identification

- WHMIS Classification: Not WHMIS controlled.
- GHS classification: Skin irritation (Category 3); Eye irritation (Category 2B).
- Hazard Pictograms: none.
- Signal words: Warning.
- Hazard statements: Causes mild skin irritation (H316); Causes eye irritation (H320).
- Precautionary statements: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. (P305 + P351 + P338).
- Other hazards: none known.

Article 3 – Composition/Information on Ingredients

Chemical Characterization: Mixtures.
Description: This product consists of the substances listed below.

<table>
<thead>
<tr>
<th>Common name</th>
<th>Chemical name</th>

Article 4 – First-aid Measures

- General information: Consult a physician by providing the SDS.
- After inhalation: Breath in fresh air. If cannot breathe, give artificial respiration and consult a physician.
- After skin contact: Immediately wash with soap and plenty of water and rinse thoroughly. Consult a physician.
- After eye contact: Rinse opened eyes with plenty of water for at least 15 minutes. Consult a physician.
- After swallowing: rinse the mouth with plenty of water and consult a physician.

Article 5 - Fire-fighting Measures

- Suitable extinguishing media: Use water spray, extinguishing powder, carbon dioxide, or other appropriate measure that is suitable to the environment.
- Specific hazards arising from the substance or mixture: None known.
- Special protective equipment and precautions for fire-fighters: Self-contained breathing apparatus if necessary.

Revised date: 30/08/2019
SAFETY DATA SHEET

Article 6 – Accidental Release Measures

- Personal precautions, protective equipment and emergency procedures: Apply standard laboratory practices and personal protective equipment. Avoid breathing vapors, mist, or gas. Ensure adequate ventilation.
- Environmental precautions: Do not allow to enter drains.
- Methods and materials for containment and cleaning up: Absorb on sand or vermiculite and place in closed containers for disposal.

Article 7 – Handling and Storage

- Precautions for safe handling: Wear chemical safety goggles and compatible chemical-resistant gloves. Avoid inhalation, contact with eyes, skin or clothing.
- Conditions for safe storage: Store in a dry and well-ventilated place in -70 °C. Keep container upright and tightly closed.

Article 8 – Exposure Controls/Personal Protection

- Components with limit monitoring values at workplace:
  Glycerol (CAS-No: 56-81-5)

- Appropriate engineering controls:
  Apply adequate ventilation including mechanical exhaust or laboratory fume hood. Follow standard laboratory practices.
- Individual protection measures:
  Respiratory protection:
   Use appropriate respirator if there is inadequate ventilation by following the government standards.
  Hand protection:
   Wear gloves and use proper glove removal technique to avoid skin contact. Discard gloves after use by following the applicable laboratory regulations. Wash and dry hands.
  Eye/face protection:
   Safety goggles with side-shields approved under appropriate government standards.
  Skin/body protection:
   Use appropriate clothing, footwear and any additional protection measures to protect from splashing or contamination.

Article 9 – Physical and Chemical Properties

<table>

Article 10 – Stability and Reactivity

- Reactivity: Stable under recommended transport and storage conditions.
- Chemical stability: Stable under recommended transport and storage conditions.
- Possible hazardous reactions: No dangerous reactions known.
- Conditions to avoid: Heat and moisture.
- Incompatible materials: Strong acids/bases, strong oxidizing/reducing agents.
- Hazardous decomposition products: Carbon oxides may be formed under fire conditions; no known decomposition information for other decomposition products.

Revised date: 30/08/2019

SAFETY DATA SHEET

Article 11 - Toxicological Information

- Acute toxicity: Not available.
- LD/LC50: Not available.
- Skin corrosion/irritation: Not available.
- Serious eye damage/eye irritation: Not available.
- Respiratory or skin sensitization: Not available.
- Germ cell mutagenicity: Not available.
- Carcinogenicity: No components are listed in IARC, or NTP, or OSHA, or ACGIH.
- Reproductive toxicity: Not available.
- Teratogenicity: Not available.
- Specific target organ toxicity - single exposure/ - repeated exposure (GHS): Not available.
- Potential health effects:
  - Inhalation: May be harmful if inhaled. May cause respiratory tract irritation.
  - Ingestion: May be harmful if swallowed.
  - Skin: May be harmful if absorbed through skin. May cause skin irritation.
  - Eyes: May cause eye irritation.
- Signs and Symptoms of Exposure:
  - Prolonged or repeated exposure can cause: Nausea, Dizziness.
- Synergistic effects: Not available.

Article 12 - Ecological Information

- Ecotoxicty: Not applicable.
- Biodegradability: Not applicable.
- Bio-accumulative potential: Not applicable.
- Mobility in soil: Not applicable.
- PBT and vPvB assessment: Not applicable.
- Other adverse effects: Not applicable.

Article 13 - Disposal Considerations

- Disposal methods: In accordance to applicable national, regional, or local laws and regulations. For additional handling information and protection of employees please refer to Article 7 and 8.
- Contaminated packaging: Disposal should be made in accordance to official regulations. Use water or cleansing agents to clean the area.

Article 14 - Transport Information

- DOT: Not dangerous goods.
- IMDG: Not dangerous goods.
- IATA: Not dangerous goods.

Article 15 – Regulatory Information

- WHMIS Classification: Non-hazardous.
- GHS label elements: Not applicable.
- Signal word: Not applicable.
- Hazard statements: Not applicable.

Article 16 - Other Information

The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. SignalChem shall not be held liable for any damage resulting from handling or from contact with the above product. See the Technical Specification, Packing Slip, Invoice, and Product Catalog for additional terms and conditions of sale.
